

# Claude Usage Meter

selectorshub.com 4.9 ★ (11 ratings)

Extension Tools 1,000 users

## Overview

Display how much Claude.ai usage you've used and when it resets, above the Claude chat box.

Steps to use-

1. Install the plugin
2. Open claude.ai and it will automatically show the usage strip just above the chatbox in claude. That's all.

REQUIREMENTS-

Sign in to claude.ai in the same browser profile. Works with free, Pro, and Max plans.

Claude Usage Meter FEATURES:

- Display Claude.ai usage and reset time just above the Claude chat box.
- A subtle strip inside the Claude.ai composer shows live session and weekly progress as you chat
- Auto-detects active model - tracks Sonnet, Opus, or Haiku weekly quota
- Messages remaining for the current session
- Toolbar popup with progress bars, reset countdowns, and quick controls
- Desktop notifications at thresholds you choose (50%, 75%, 90% - or any %)
- Configurable refresh interval (1-60 minutes)

PRIVACY

The extension talks only to claude.ai using your existing browser session. It reads the same internal usage endpoint that Claude.ai's web UI uses. Nothing leaves your browser. No telemetry, no analytics, no remote servers.
