Overview

Track your Claude.ai usage limits — session & weekly with auto-refresh

Never be caught off guard by Claude's usage limits again.

Claude Usage Tracker shows your real-time usage directly in your browser toolbar — no need to visit claude.ai to check.

Features:

- Session (5-hour) and weekly (7-day) usage with progress bars
- Live countdown timers showing exactly when your limits reset
- Badge icon on the toolbar showing your remaining % at a glance
- Color-coded status — green, amber, and red as limits approach
- Auto-refreshes every minute in the background
- Detects your plan automatically (Free, Pro, Max, Team)

How it works:

Uses your existing claude.ai login session — no extra sign-in, no accounts, no setup. Just install, and it works.

Privacy:

All data stays in your browser. No external servers, no tracking, no data collection of any kind.
